

What goes on during blitz week?

Extra Street Cleansing services

Do you know of any problems with graffiti, litter, flytipping or abandoned cars in your community? If so let us know online or call us on 01295 227007. During blitz week there will be more street cleansing activities going on in your area to make it as clean and litter free as possible, to achieve this there will be extra litter picks and street & pavement sweeping.

Car amnesty

During the blitz week we will remove and recycle old cars free of charge. If you would like to arrange the removal of your vehicle please go online or call us on 01295 227007.

FREE bulky collections

During the blitz week you can book for your bulky waste to be collected for free. You can easily book your collection online at www.cherwell.gov.uk/recycling or call 01295 227003.

Please note you must make a booking for your items to be collected.

Please remember fly tipping is a criminal offence, not only is it a hazard to the environment but litters your community. During the Blitz week we work hard to clean up your neighbourhood and remove fly tips, however it would be better if they were not left in public areas in the first place.

There are now many ways to dispose of or recycle large items and during the Blitz week you can get these items

collected for FREE! You may not be aware that you can also take items (free of charge) to your local waste and recycling centre or contact the various re-use charities in the district to arrange collection (see www.cherwell.gov.uk/recycling for more details).

What you can do in your community

By encouraging everyone to help keep your neighbourhood clean and tidy, your area will be a safer and cleaner environment to spend time in.

Could you help to clear up your community?

Cherwell District Council can loan litter pickers, gloves and sacks to help you with community litter picks. If you would like to organise a litter pick please go online for more information or call us on 01295 227003.

Cherwell District Council is working to make Cherwell a cleaner, greener and safer place to live and work in.

Look out for recycling events in your area including discounted blue and brown bins.
